Joyner Library, in conjunction with ECU Disability Support Services (https://dss.ecu.edu/) will provide, whenever possible, equality of opportunity for all patrons with disabilities and assure their full access to the services and materials of the library.

When services cannot be adapted, alternate methods of access to library services and materials will be provided when possible so that patrons with disabilities may be able to make effective use of the library. More information about Joyner Library's disability services can be found at https://library.ecu.edu/services/disability-services/.
