

# LIST OF SPRING 2023 ONE-TIME ELECTRONIC RESOURCE PURCHASES

The library has purchased access to a wide range of electronic resources using one-time funds. Most of these resources are primary source databases across many different subject areas, including history, African American Studies, Women and Gender Studies, literature, religious studies and more. We have also bought journal backfiles, ebooks, and additional modules for Sage Research Methods. These are available to our users via the database list and the E-journal/E-book Portal.

Please contact your [liaison librarian](#) or [Joseph Thomas](#) if you have any questions.

---
